

TRUCKLOAD BOOKS SENT TO EVERGLADES CHILDREN'S LIBRARY

Virgil D. Chandler, Sponsor, Delivers Books To Belle Glade

MONEY WAS COLLECTED BY EAST COAST WOMEN

Books Are Being Catalogued For Distribution To Children

That the children of the Everglades are in charge of a book and constructive reading material. Virgil D. Chandler, sponsor of the Everglades Children's Library, delivered a truckload of books at the town hall at Belle Glade Monday. Six hundred books were in the collection and will be available to children from South Bay to Canal Point.

The management of the library which is in charge of a book and constructive reading material. Virgil D. Chandler, sponsor of the Everglades Children's Library, delivered a truckload of books at the town hall at Belle Glade Monday. Six hundred books were in the collection and will be available to children from South Bay to Canal Point.

FARM CROPS IN FLORIDA BRING HUNDRED MILLION

Florida's farm crops during 1928 were valued at \$200,000,000 according to a report issued by the federal government. It is estimated additional crops will be produced in the government report such as avocados, blueberries, grapes, etc., were valued at \$200,000,000. The agricultural revenue to \$100,000,000 during the year. Citrus fruits were valued at \$200,000,000. The total value of the crops, eight major crops were valued at \$38,000,000 and strawberries at \$1,700,000.

PAPER DELAYED

Intermittent electric power last Friday morning delayed this issue of the paper from going to press. The cause of the trouble was not ascertained.

DRAINAGE BOARD SEEKS LEGISLATION

Would Cooperate With Federal Government to Prosecute Everglades Drainage

Tallahassee, April 6.—Trustees of the internal improvement fund at a special meeting last night agreed to call upon the Florida legislature to adopt a proposed measure empowering the board to enter into a drainage agreement necessary for the federal government to prosecute the work of Everglades drainage, and also to confer with the board drainage committee next Wednesday regarding the enactment of possible legislation to that end. The Associated Press reports.

The trustees also agreed to defer action on a proposed agreement between the board and the federal government. The board is the Southern Sugar Company, the creation of a dike around a portion of Lake Okechobee, designed to protect life and property in the region area, where the company has its holdings.

To Introduce Bill Change Lake Status

J. R. Poland, of Pahokee, old-timer and fishing enthusiast, said Tuesday he was being prepared for introduction in the legislature providing for a change in the classification of Lake Okechobee. The lake has been under the same classification as salt water bodies and it is desired, Mr. Poland said, to place it under the same classification as fresh water lakes and streams. It was said that seining would be regulated if the lake were under the fresh water classification and that the large-mouth black bass which are rapidly disappearing, would be given a chance to multiply. Under the salt water regulation seining is permitted at about the same time that bass are spawning, disturbing the fish and lessening the number of young fish that would grow to maturity.

Mr. Poland declares that good wages can be made trout-fishing by the lake year round whereas by seining the fish are taken all at once and the fishing season is limited for at least a year.

Commercially the cat fish is the most valuable fish and can readily be taken on a trot line, leaving bass and other scale fish for local tables, purposes, and sport.

EVERGLADES FLOOD CONTROL BOARD

Organizations And Individuals Unite In Effort To Secure Appropriation

Organizations in the various communities in the Everglades are forwarding petitions to the Florida board of public safety for relief in the matter of flood control. Cooperation of individuals and organizations is being urged to get congress to appropriate an adequate amount to prevent recurrence of the catastrophe like that of September last year.

Evidence of the desire of the people of the association, in a letter to organizations in this territory, said that the association is a non-political and non-sectarian, selfless organization, offering its services for the people of the entire country. He further stated that the good wishes of the people are not sufficient for appropriations by congress will come only from the evidence of a united effort to relieve and that individuals should send in letters in larger numbers. When the association they are asked and copies are given to committees of congress which are considering the matter, where it is explained that the association can speak with greater authority if a greater number of requests to do so are in hand. Blank forms to be used in this connection may be secured from Rev. J. C. Denton at South Bay.

NOT ENOUGH PAGES

Shortage of eight-page paper by wholesale printer here resulted in this issue of The Everglades News being overcrowded. A wire was received last night advising inability to deliver the paper for other arrangements to be made.

RAIN HELPS TOMATOES

A heavy rain last night brought promise of better yield and higher quality of tomatoes. Crops have been watered for some time and the shower of last night will give indication of greater returns from the crop than has been estimated.

WRECKED LIQUOR CAR

Deputy Sheriff W. H. and H. T. Lawrence investigating the report of a wrecked car on the road between Canal Point and 20-mile road last night found two badly damaged cars in ditches on opposite sides of the road. Investigation indicates that one of the cars, a Humboldt roadster, contained a quantity of liquor. The car was reported to be seized. It was reported that one was found near the wrecked car but that blood stains were discovered on the car's floor. The roadster was towed to the Canal Point Garage where it will be kept until the sheriff's office calls for it.

Unusually is equidistant between the Gulf of Mexico and the Atlantic ocean—50 miles.

COSTS OF TOLL ROAD TO GLADES FARMERS

Shown By Canvass

Chamber of Commerce Collects Figures To Be Furnished Legislators

EVERGLADES FARMERS PAY MUCH TO TRAVEL

Blank Forms For Statement Available At Pahokee And Canal Point

Collection of data by the Canal Point Chamber of Commerce showing costs of motor travel in this neighborhood is being distributed to the legislature. The information is being taken on a trot line, leaving bass and other scale fish for local tables, purposes, and sport.

The figures compiled are from farmers who reside in the Pahokee, Belle Glade and Canal Point territory. The forms used in collecting the information give the name and number in family, occupation, number of employees and number of acres cultivated. It gives the number and kind of motor vehicles used, approximate amount of tolls paid annually, approximate amount of gasoline tax paid, amount of state license fee, license taxes and amount of state, county and other taxes.

According to figures given in the collection, the average farmer in the territory pays \$102.44 per capita in gasoline tax, license tax and state license fee. The average farmer pays \$102.44 in tolls.

It is suggested by many that if the owner of the toll road finds it profitable to operate, the state could expect an increase in the gas tax, in the event of state purchase, more than equal to the toll collections, which would pay for the toll.

Persons traveling on the road pay three cents a mile for making it expensive to travel for any purpose. A man traveling five miles from Canal Point, making daily trips with a crew of 20 laborers pays \$2.50 for the toll, more than his gas or motor vehicle tax. Over a period of 30 days his toll would amount to \$75.00.

Other data is being collected and will be presented to representatives of the legislature. Residents are requested to fill in forms which can be secured at Baker's, Canal Point Drug Store and from Pat Barker & Lund, contractors.

COMPANY FORCES BUILDING STORE

Southern Sugar Co. Continues Building Program At Canal Point

The Southern Sugar Company with plantations in several sections of the upper Everglades and near Clewiston and Canal Point, continuing its program of building a new store at the company's headquarters. The need for housing for Negro laborers is being met by the building of new houses. The building now going on is a big company forces who are erecting a new store to serve the mill community.

The building which has been erected and receiving storm sheeting will represent a large store in building construction at this point. The store will be 50x100 feet and will have a floor area of 40,500 square feet. It will have a total of 7,000 square feet of floor space. A meat market will occupy a portion of the space and grocery and general merchandise will occupy the remainder of the store.

A 10-foot runway will run the front of the building and a 10-foot runway will connect the warehouse and the store. The building will be a flat-roofed and steel structure. The building will be finished with white wash. The interior will be finished with white wash. The building will be finished with white wash.

The present store building fronting on the highway will be used as offices by the company.

PLANS DEMONSTRATIONS

Demonstration To Be Given Truck Crops And Fertilizers On Muck Soil

By M. C. Mounts, County Agent

Some publicity has been given our plan of work for 1929 in one of the last coast newspapers. The management of The Everglades News has inquired what part of this work is intended to be done in the area and in answer to the question we are going over our plan of work.

To begin with, it is not the function of a county agricultural agent to do experimental work. One of his functions is to advise and to distribute this information to the farmers. We are working with that thought in mind and it is our purpose and intention to be of assistance in one section of the county as another, in proportion to the amount of farming in these various sections.

In our work in soils we are stressing over crops for sand, loam, and clays. While not so necessary for the muck land farmers it has been found that a heavy cover crop will keep weeds and grasses from coming so heavily and this will be in fields where the soil is poor. Velvet beans are a splendid crop for this purpose.

We hope to have several demonstrations in the use of fertilizers throughout the county and hope to have a few in the Everglades. Under farm crops we believe that improved seed corn would be of great benefit to growers of this late winter crops. We have a few of these and we are planning to have at least two farm crops we improved seed corn.

Under farm crops we believe that improved seed corn would be of great benefit to growers of this late winter crops. We have a few of these and we are planning to have at least two farm crops we improved seed corn.

Nothing Fishy About This Turkey Take?

A dozen turkeys from two turkey farms is the record had reported by T. B. Gilbert and M. D. Geiger of Canal Point, who have a turkey, chickens and geese at the near mill east of town.

The eggs, carefully counted when the turkeys were set, were checked by both men and geese were made as to the number that would hatch, the most up-to-date method of raising turkeys. The mother presented twelve little turkeys a few days ago, the amateur poultryman wouldn't believe them to be turkey chicks. The witnesses confirmed the number.

The only explanation that was given by the owners was that two of the eggs had been laid by a turkey. The turkey and the geese are willing to make an attempt to hatch the eggs. The reliability of the statement.

A second setting of ten eggs due to hatch in a few days are being watched closely for similar results.

THOMAS & BARRETT MOVE INTO NEW PLANT

Work Started Before Storm of Last September Is Now Completed

The Gulf Refining Company, Thomas and Barrett, announced that the new plant at Canal Point, Florida, is now completed. The station is on Pahokee Road and is served by a siding from the Florida East Coast railroad.

The station grounds are surrounded by a steel fence and four buildings. The station is on Pahokee Road and is served by a siding from the Florida East Coast railroad.

EVERGLADES PAPER TO AWARD FOR CAR FIRST WEEK IN JUNE

More Reads For Everglades News Sought Among Land-Owners And Residents

ANNOUNCEMENTS ON PAGE TWO AND FIVE

Contestants Are To Receive Prizes And Cash Commissions

Prizes totaling about \$2000 will be given away by this newspaper soon. This is the first time a campaign has been launched in this part of the Everglades. The contest promises to run high. It will be easy for workers to obtain thousands of readers and the newspaper will get out and asking for them. Every subscription turned in by April 27 will give you \$100.00. Think of it.

The early days of a campaign of this kind are days of rising and falling hopes. Every contest which is given free advice nearly always being that you have no chance to win. The weak and the timid are the ones who follow the wishbone and fall back on anything and never will. To the young workers who have the courage of their convictions, The Everglades News will open the way to better things. So far 10 of these young workers have been named and the contest will continue until the end of the month.

The plan

The Everglades News wants more circulation. It is the idea of this paper that as many people as possible in the Everglades should be interested in the progress that is being made in this section. It is decided to give the young men and women who are interested in this section an opportunity to obtain for their work valuable prizes purchased from stores in this section.

To the young man or woman obtaining the most votes during the period of the campaign, which is from now until June 1, the Everglades News will give a brand new Ford Tourer Sedan, retail value \$244.00. To the contestant obtaining the second largest number of votes, a cash prize of \$200 in gold will be awarded. The third prize will be a beautiful white diamond ring valued at \$50. The fifth prize will be a \$50.00 cash prize. In addition to these prizes, \$500 will be reserved for cash prizes. \$500 will be reserved for cash prizes. \$500 will be reserved for cash prizes.

The completion of the new plant was delayed by the September storm. The new plant is now completed. The station is on Pahokee Road and is served by a siding from the Florida East Coast railroad.

Growers Association Opens House Here

Work was started Wednesday on a \$100,000 tomato parking house to be operated by the Palm Beach County Growers Association. The building will be located near the town hall at Belle Glade. The house will be used for the storage of tomatoes. The house will be used for the storage of tomatoes.

According to C. B. Savage, chairman of the board of directors of the association, it will be a non-profit association, only two persons, one giving salaries, E. H. Whitford, president and general manager, and C. B. Savage, chairman of the board of directors. Other officers are John A. White, secretary and treasurer and B. Savage, chairman of the board of directors.

Offices are now being maintained in West Palm Beach where the association has a packing house. From the east coast house 30 cars have been shipped up to the present time. Mr. Savage said Wednesday that several hundred tons of tomatoes have been shipped to this house and that arrangements will be made next year to receive more farmers in the association.

Re-organization of the Everglades. The Everglades is a matter of much interest among players and residents of the Everglades at this time. T. J. Gilbert, secretary of the league, reports.

An informal meeting, after the Brown Company and Clewiston teams had been held at the Brown Company plantation and plans were discussed relating to the game. The meeting was held at the Brown Company plantation.

Teams have been organized at Clewiston, Belle Glade and Shawano (the Brown Company plantation) and it is expected that a game will be held at Canal Point or Pahokee. CANAL POINT

Mr. and Mrs. W. H. Vann and Mr. and Mrs. Horace Hamrick attended the wedding of Mr. Hamrick's brother to Miss Lois Underwood in West Palm Beach Monday.

W. H. Holland of Crystal River, Fla. was a caller on East Beach Tuesday.

C. B. Savage, agricultural agent for the Lake Worth drainage district spent Wednesday in the Everglades.

Mr. Savage ran a seed business at Belle Glade last year.

Miss Lena Mae Lamb, who has been visiting her friend, Mrs. Horace Hamrick, returned to her home in Fort Lauderdale Sunday.

PLANE DAMAGES GEAR

A plane, carrying passengers for hire, wrenched its landing gear when landing at Bacom Point last Sunday, but no one was hurt and the damage was repaired at Geiger's Garage. K. H. Mitchell of Delray Beach is the pilot. The accident occurred when the plane landed on a rough spot and the wheels struck a hole in the ground.

WORK IN DISTON ISLAND

Arrangements were made Monday evening for Bryan & Holloway Construction Company to repair dikes around Lake Hippocrite in Diston Island drainage district near Moore Haven. Drainage canal will also be cleaned out in preparation for the rainy season. Stuart Holloway, who will be in charge of the work, estimate three or four months work will be required to complete the job.

The dipter dredge now lying on at Chosen will be used in excavating if depth of lake permits towing the dredge to Moore Haven.

Oriando is famous as "The City Beautiful."

M. E. CHURCH NOTES

Sunday School 9:45 a. m. and at Tyler's at 2:30 p. m.
Preaching 11 a. m. and 7:30 p. m.
Prayer meeting Wednesday, 7:30 p. m.

The ladies of the church had a delightful picnic Tuesday bringing the fiscal year to a gratifying close. The pastor and his wife will go to the annual conference at Lake Worth with all the benevolences fully provided for.

There is every assurance of the building of the church edifice, so long pending, in the near future, the matters relating to finance having been cared for since the visit of the bishop at the last quarterly conference.

The seat of the annual conference being so near (Lake Worth) we hope to see Canal Point well represented. Mrs. Elizabeth Bergen was elected by delegate and Mrs. Dorothy Tyler as alternate.

The Ladies' Aid of the Lake Worth church will serve lunch at a nominal cost of all who care to come. Lunch is served after the morning session of conference.

C. P. HIGH SCHOOL NEWS

The school is planning a May day program. Miss Young has ordered some material and in the meantime, the girls in gym class are learning some old folk songs to be danced in honor of the May queen. Each grade will take part in the program. The May pole dance can be given by one of the lower grades. We hope to have good weather for the program can be given as planned. The ninth and tenth grade classes are studying debates at present, and they expect to have an inter class debate soon. No definite subject has yet been chosen, although the proposition as to whether or not should be placed around the lake has been discussed.

All the rooms are enjoying the flowers resulting from all the seeds planted by the agriculture class of girls. They have gladioli, pansies, violets, geraniums and many more now in bloom. Sweet peas and nasturtiums bloomed earlier and a great many bouquets have been picked from each.

The High School agriculture boys class is going to make a book case for the books to be sent out for the Everglades Library.

Material has been ordered for a new flat house, so that plans can be taken care of better. This flat house will be built by the boys agriculture class.

The ninth grade is having an essay contest. The subject is "Total Abstinence As a Help in Athletics." The first prize given by the W. C. T. U. through Mrs. Filly is five dollars and the second prize is one dollar.

Mrs. Filly is going to give the contestants material to read and use in their essays. The essays are to contain no more than a four-page limitation, however, and a maximum of 800 words.

The seventh and eighth grade groups are making a book case for Europe. The corners are bright colors with cut out letters. Information as to countries, capitals, mountains, rivers, and products will be kept in it.

Mrs. Morgan, the Home Demonstration agent came out to Canal Point April 19th. She brought Mrs. Lyle with her. Mrs. Lyle taught us how to paint. We painted book ends. The book ends are of galvanized metal and painted black. A bright flower or other design was then painted on this background. They are very pretty and the club girls enjoyed working with them. There were 18 girls present at the meeting.

As a practical experiment Devane, T. A., and some of the other boys in physics class hooked up a telephone between two rooms. It works quite well.

The chickens are hatching which were put into the incubator by the girls in the agriculture class. Vera says they are going to be brunettes. There are also some strawberry blonds and blonds among the group.

Thomas Elliott was carrying some beans in a truck on the Belle Glade road the other day. He looked back at one of our behind and just as he did, it blew out. The truck went off the road, but was not damaged much. Thomas was not hurt except a strained thumb.

During the first 30-minute periods after noon, two days in the week, the light will be on until the end of school. Each pupil will have a spelling which has list of the most commonly misspelled words and a spelling table in which he can keep a record of what he has done. Spelling contests between the rooms will be arranged for some Friday afternoon.

One of our California tourists has returned. He reports having reached Chattanooga.

The seventh and eighth grade boys are getting up an indoor baseball team. They haven't yet fully organized.

In literature class the other day we were discussing the meaning of eccentric as applied to certain literary characters. "Oh," said some body in sudden enlightenment, "That's like Mr. Sharp is, isn't it?"

The seniors are still hoping for a banquet from the juniors, but as yet no definite announcement has been given by that class.

Mrs. Goshoff got a letter from Miss Maxwell this week. She says that she and all the girls are enjoying legislature very much. Mr. Sharp has been so good about bringing them out to dinner, and as all Tallahassee girls know that is the biggest treat there is. Miss also says that when she read in the paper about the high school play, she got right home sick. The editors have only about seven more weeks, so they will be home before our school is out.

TO ALL HOME OWNERS!

In a contest now starting in this paper one of the awards (a bed room suite) was selected after a careful comparison from our stock at 119 South Poinsettia avenue, West Palm Beach, Fla. There is only one answer they found better—DOLLAR FOR DOLLAR VALUES.

Since April 1st we have consolidated the stock of our store located at 1910 South Dixie with our stock at 809 North Dixie and 119 South Dixie. In combining these stocks it makes the finest and most varied selections to be found in West Palm Beach. Each piece has been carefully marked to sell at PRICES heretofore unheard of in the annals of furniture sales.

Below are listed a few of our many good values:

9 reasons why it will pay you to choose a General Motors car

- Engineering Excellence.**—All General Motors products embody the tested ideas of open-minded scientists of the Engineering Departments, Research Laboratories, and Proving Ground.
- Fair Price Policy.**—General Motors products offer maximum value in each price class, whether you pay cash or buy on time, or use your present car as part payment.
- General Motors Acceptance Corporation.**—The largest time financing company, offering low rates, making it easy to buy out of income. (GMAC Plan).
- High Resale Value.**—A large number of miles of transportation are built into each General Motors car and truck. That mileage gives the product a definite cash value, which is maintained in the used car or truck market.
- Finest Body Work.**—Fisher Body is a part of General Motors. That assures you the most sturdy, safe and beautiful bodies. All General Motors cars have "Body by Fisher."
- Volume Production.**—By producing around 2,000,000 cars and trucks a year, together with many other products, General Motors can effect large economies in manufacture which are passed on to you in the quality and price of your General Motors car.
- Combined Purchasing Power of Many Companies.**—Assuring the use of the best materials at the lowest prices.
- World-wide Service.**—There are 33,000 salesrooms and service stations in more than 100 countries to serve General Motors customers.
- Permanence.**—General Motors is in business to stay. Its resources, strength, and stability assure you that the quality, service, and value of its products will be maintained.

WATTS & SON, Jewelers
WEST PALM BEACH

Surpassing in generosity and in easy winning opportunities all previous circulation campaigns ever conducted in this section of the State, The Everglades News today announces a prize offer which will quicken the ambition of every alert, live-wire, man and woman. Two Thousand Dollars in valuable prizes and liberal cash commissions, are to be awarded in return for a little spare time effort during the next few weeks.

A FORD TUDOR-SEDAN is to be given away to some ambitious man or woman as a reward for collecting votes during this gigantic campaign. Other prizes are also included in the list of awards. To all active workers who fail to win one of the regular awards a cash commission will be paid. Best of all it doesn't cost a cent to enter—to compete—to win! Votes alone are necessary and you are given 10,000 free votes for entering the race—then you get votes for the free coupons that will appear in every issue of The News; you also get votes on all NEW and RENEWAL subscriptions you obtain for this paper. The voting strength at the close of the campaign will determine the winners of the different awards.

YOU have always wanted a brand new, latest model automobile! Here is your chance to earn one with just a little spare time effort. Just imagine winning a Ford Sedan for the use of just a little spare time effort.

IT'S EASY TO WIN! Obtaining paid in advance subscriptions to The Everglades News is just a matter of securing the support of your friends and acquaintances in your spare time, for everyone likes and admires this popular and progressive newspaper. They will be glad to assist you if you only acquaint them with your desire.

AN EARLY START is the surest door to victory. The magnitude and value of the prize list is the goal—and your own ambition completes the winning combination. Clip out and send in your own, (or a friend's) nomination today.

The Grand Capital Prize, a Ford Tudor-Sedan will go to the candidate polling the greatest number of votes in the campaign.

\$200.00 in Gold will go to the candidate polling the second highest number of votes.

A 5-piece Bed Room Suite will go to the candidate polling the third highest number of votes.

The next highest will receive a \$60.00 diamond ring.

The next highest will receive a \$60.00 wrist watch.

After the above prizes have been awarded to the successful prize winners, those who have not received a prize will be paid a cash commission of 10 per cent on all money turned in, provided they have been active throughout the campaign and making a cash report weekly.

COMPLETE LIST OF PRIZES

Ford Tudor-Sedan, wire wheels, value \$641, purchased from and on display at Elliott-Robinson.

\$200.00 in Gold.

Five-piece Bed Room Suite, purchased from and on display at Palm Beach-Mather Furniture Co.

Glades Club Women Met At Belle Glade

The Belle Glade Women's Club entertained officers of the State Federation and members of the Canal Point and Pahokee Women's clubs

on Wednesday at an all-day meeting at the Community club. The meeting was called to order by Mrs. Donald Ferguson, president of the Belle Glade club who welcomed the guests in a graceful speech. After the Lord's prayer was recited and America, sung the introduced Mrs.

F. W. Tyler of Fort Pierce, vice president of section 10. Her speech was a most interesting one. The mission was to tell of the state council meeting.

Mrs. D. C. Morrow, chairman of public welfare and vice president of section 10 gave an interesting talk on mosquito control and asked for donations of flyers to be distributed by the welfare committee wherever they were needed. The meeting adjourned for lunch and a most delicious one was served by the hostesses. During the lunch hour Mrs. Kelly and Mr. Evans entertained the guests with several vocal selections which were much enjoyed.

After lunch Mrs. W. G. Bartsch, of Fort Pierce, chairman of the division of forestry spoke on conservation of trees.

Mrs. W. W. Gleason of Fort Pierce, official parliamentarian of section 10 gave a most interesting and instructive talk on parliamentary law. The meeting adjourned about 4 o'clock and all present voiced their appreciation of a most delightful day.

Monday night at the Women's club the members, their husbands and friends celebrated the fourth anniversary of the organizing of the Pkthian Sisters Temple in Oklawaha. After the guests had assembled at 8 o'clock and were served a delicious supper was served.

Florida is the largest producer of cattle in the east.

Pahokee, Florida

BELLE GLADE

By Gerrit Koyker.

On walking about town the early part of the week, we were impressed and surprised on finding so many Red Cross tents rolled up and ready to be carted away and the folks merely housed in real homes. Some of these are but small it is true, but all make a real home, just the same.

We found two new places of business opened up the past week. Mr. Kelly who with his brother are running a men's furnishing store in West Palm Beach, in the Commercial building have opened a similar store in the hotel building here. They have a splendid variety of good quality clothes. On A avenue just across the town hall you will find a department store where the bargain counter draws those seeking bargains. And in the rear of the store is a wholesale candy business.

The two gas pumps of the Federal gas station have been placed and will soon pump out gasoline and oil.

A little farther up the street you will see the frame work of both the Ford garage building and the pool store. While we were writing we were told that the road in South Bay would be closed to the public on Tuesday while the construction company is oiling the same.

Speaking about the recent community advancement, you have not had it all as yet. Dr. Back is moving from his tent office to the Darden block. And such an office too. You will find there a set of four rooms, a small waiting room, a room where the doctor will meet and examine his patients; an X-ray room and the surgical room. Much of this equipment is the doctor's own. He is able to meet any emergency and condition in his line. In this, Belle Glade is not behind any good size city and the community will tend to appreciate the wonderful advantage it has over many much larger towns.

The children are finding considerable amusement working the foot ball game which has recently been placed in front of the Everglades hotel. They put in a nickel and then work a lever to make the little men in the cabinet kick the ball.

The books of the circulating library have come and the committee is busy getting them properly cataloged and ready for use. They will be placed in the town hall and any one in the community can have the advantage of good reading.

In order to avoid the warm hours of the day, the school work began at 8 o'clock in the morning, with 20 minutes for noon lunch. They can get in the full school hours and be dismissed early in the afternoon. The plan is working out splendidly. The children suggested the plan themselves, as they realized that the morning hours were far more valuable to them than those of the afternoon.

The body of Ray Summers, who perished in the September storm, was found last day by Mr. Webster, under some rubbish which he was clearing up. The body was identified by the wooden leg which his pocket knife. The bodies of his wife and child were found immediately after the storm but no trace had been found of him until now.

Captain Scott and Mr. Trickle who did considerable contract work in Belle Glade this winter, have left for their homes in Hollywood, where the captain is now the police chief and Mr. Trickle is engaged in contract work there. Ralph Trickle has been looking after some of their work here.

The drug store has a new clerk known by the name of Dick. We told that he comes from Hollywood. Mrs. Evans returned from Illinois last Friday morning, accompanied by her son from Detroit who will visit here with his parents and sisters.

Miss Ima Lee Swango is clerking in the Douglas store this week. The Traque family is leaving this week for their former home in Arkansas.

Mr. Hutchins and his son, Henry, are planning to leave Saturday for Virginia.

The community hall is again the scene of activity these evenings when several of the boys drop in and rough the bag for a while. They have brought two set of boxing gloves and some of the men match up a couple rounds at a time.

A committee of citizens waited on the county school board Wednesday morning to bring to the attention of the board the promises they made some time ago relative to a real school building. Belle Glade wants more than just a help out. They want a full high school. They want to know now that they will have it next year in order that it can be advertised and that people who have children of high school age can settle in this community with the assurance they will have these advantages.

Town Election. Tuesday was the annual election for the town of Belle Glade. At the conclusion of a week, the names of 12 men were placed in nomination for councilmen and the ballot prepared accordingly. It was also decided at that meeting that the matter of electing a clerk and a marshal be made by the council, and if possible, be combined in one man.

and he to receive a salary. The ballot as prepared for the voters read as follows: For mayor, Walter Grier and C. E. Riedel. For councilmen, Wm. J. Buck, J. O. Harden, L. C. Bennett, Joe Friedheim, H. Bore, Lawrence Will, Max Morris, R. Bradlock, J. H. Hill, H. J. Harris, J. Swango. Of these, Walter Grier was elected mayor. For councilmen the first three named and Mr. Friedheim of the council were elected and Max Morris.

It is expected that the board will meet soon and elect the clerk and sergeant.

SOUTH BAY

April 6, 1929.

The Wolfe Construction Co., who have the contract for putting on the asphalt top surface to the road between Belle Glade and the Hendry county line has cut off the road between South Bay and Belle Glade for transportation and the detour follows the old road past the Hart farm and Chosen. It is understood that it will be ten days or two weeks before the road is open to traffic. This will be somewhat inconvenient during this busy season but it will be worth it to have the road finished before the rainy season sets in once more.

Miss Ruth Cowen of Miami spent several days last week visiting her father, L. J. Cowen and renewing old acquaintances in this vicinity.

Mrs. Lily Augustine and son Richard are here visiting their father-in-law and grandfather respectively. Mr. Frank Augustine, Mrs. Augustine lives in Chicago and came down via Clewiston early in the week and expects to end some time in this vicinity.

Rev. and Mrs. Hartley, who have had the hotel in charge for some little time expect to leave next Monday for their old home in South Carolina where they will locate for the present. While in South Bay they have made many friends who will be sorry to see them go and they will be missed in the Sunday school.

V. C. Denton made a business trip to West Palm Beach last Friday. Robert Creech is now shipping tomatoes from his farm on Ritta island in quantity.

The Fourth Quarterly Conference of the Methodist Episcopal church met Monday evening at the home

of Mrs. G. J. Barstow and although the attendance was somewhat depleted due to the loss of several members by death and the departure of others, from the community plans were made for the coming annual conference which will convene at Lake Worth on Tuesday, April 16.

Mrs. E. E. Forbes was elected lay delegate to the conference and Mrs. H. C. Willis alternate delegate. Plans for the coming year were also discussed informally.

Mrs. Milford Hardy's brother, who is an expert plasterer, has brought his family out and located them in the home of Mr. and Mrs. Van C. Hartley, while he is engaged in stuccoing the Frank Lee building and others.

Ed Crocker, manager of the local Freidheim-Crocker store, who is a butcher of wide experience expects to make a specialty of meats in connection with the grocery. He anticipates having Mrs. Crocker and his family with him very soon.

Mrs. Mary Eashley, who is farming the tract of land formerly owned by his two brothers, received tidings from Miami last Wednesday of the arrival of a nine-pound boy at his home there.

Mrs. Mary Eashley and Mrs. Graham were recent luncheon guests of Mr. and Mrs. Walter Templeton.

CUBAN SUGAR CROP IS DAMAGED Heavy damage to the current sugar crop in Cuba by fires in Camaguey and Oriente provinces has been reported at Havana. The output of one plantation alone will be reduced by 25,000 bags as a result, it having been estimated that the loss in this one instance amounts to more than 3,000,000 pounds of cane.

ELECTED MAYOR H. T. (Ham) Holloway, well known in the upper Everglades Monday was elected mayor of Homestead when he received 50 votes to his opponent's 47 votes. Mr. Holloway has dug many canals and built several roads in this section and this week his company was awarded a contract in Diston Island drainage district on the west side of Lake Okechobee.

BARGAIN—29 acres custard apple land in Section 29, 1-2 mile east of Pahokee on Belle Glade road; one-half mile from 36th pump station, 10 acres in cultivation. If government furnishes money for Everglades land, land doubles its value. \$25 per acre buys 29 acres. Address R. C. Cave, Broward Hotel Building, Fort Lauderdale, Fla.
